Wyland Foundation

Mobile Learning Center Across the Border

The Wyland Foundation embarked on one of its most unique educational outreach tours in November, with a 4-city community clean water program across Baja Mexico. The bilingual program, sponsored by Sempra Energy, with support from the Governor of the state of Baja California, Norte, includes visits by the Wyland Clean Water Mobile Learning Center to schools and acclaimed institutions such as the Museum Del Sol in Mexicali and the Tijuana Cultural Center. With water issues affecting both sides of the border, the Wyland Foundation is taking an important first step in bringing together children from both countries for marine conservation and clean water education.

For more information about the Mobile Learning Center and other Wyland Foundation programs and events, visit www.wylandfoundation.org.

Wyland VIP Cardholder Special
